BCM 1000: Transitioning to ISO 22301:2019

Objetive:

Identify and describe the changes made to the 2019 version of ISO 22301 and understand why the changes were made and how these changes can impact implementation and auditing.

Audience:

Aimed at 2012 ISO 22301 accredited Lead Auditors and those interested in understanding the changes to ISO 22301:2019 who already know ISO 22301:2012.

Description:

With the new version of ISO 22301 released in November 2019, this course is designed to help you get up to speed on the changes, why they were made, and their potential impact on your business continuity management.

This 2-hour online learning module provides a comprehensive review of the changes and enhancements and a downloadable 2019-2012 comparative guide.

Upon completion, take the opportunity to sit for a 1-hour online, open-book exam, combining multiple choice and short answers.
